

To harmonize signage, the Borough of Saint-Laurent has regulations to guide the installation of signs on commercial and service buildings.

A permit or a certificate of authorization from the Borough is required prior to installing a sign.

Process

To submit a request to install a sign, the form, "Application for a sign certificate", must be filled in and attached to the required documents. These documents must be submitted to the Division des permis et des inspections, located at 777, boulevard Marcel-Laurin.

Costs

Fees are required to process a request.

Types of signs authorized

- Sign attached to the building
- Detached sign

Maximum number

Building occupied by 1 establishment

- 1 sign
- 1 sign per adjacent street if the establishment faces more than one street

Building occupied by 2 or more establishments

If all establishments face the street, one of the following two options must be applied:

- **Option 1**
 - 1 attached sign per establishment
 - 2 signs for suites occupied by 2 or more establishments
 - 1 attached sign per adjacent street (only for establishments facing more than one street)

OR

- **Option 2**
 - 1 detached sign per lot for all establishments in the main building
 - 1 additional detached sign per adjacent street for all establishments (only if the main establishment faces more than one street)

If not all establishments face a street:

- 1 attached sign per establishment
- 2 attached signs for suites occupied by 2 or more establishments

One supplementary detached sign for all establishments that do not face the street can be installed. This sign must be installed facing the adjacent street.

Maximum area of an attached or detached sign (figure 1)

- 0.2 m² for each 0.3-metre section of the width of the building facade, to a maximum of 20 m²
- In situations in which several establishments share the same commercial suite, the total area of signs attached to the building must respect the dimensions listed above.

Figure 1: Calculating the maximum authorized area of a sign

Height of a detached sign

On a post

- Maximum: 6 m

On a plinth

- 3,5 m maximum, but as much as 6 m if sign location respects the minimum front setback requirement

A sign cannot be higher than the height of the main building on the lot on which it is located.

Office building sign

- 1 detached plinth sign is authorized when the building is only occupied by a professional or financial service, or by commercial offices.
- Buildings which are occupied by a mixture of other authorized uses: signs attached to the building can be installed. They must be located between the ground floor and second floor and must respect that provisions cited in the "Signs attached to a building" section of the "Signage : General provisions" infosheet.

Signage for one or more establishments that do not face the street

In these cases, one sign attached to the wall containing the main entrance to the building or on the vertical surface of an awning or a canopy can be installed, even if the awning or the canopy does not face the street.
